OUR HISTORY

Incorporated in 2000 by Dr.Jose Mikle Robin, Oasis Grace LLC, is an Excellent Grade Civil Construction Company located in MBD, Ruwi, Muscat, Sultanate of Oman. Over the last 21 years, we have established ourselves as the "Most Respected and Trusted company" in the field of general contracting in Oman. Growing steadily over time, we have the complete infrastructure in place and many successful projects to our credit. In the commercial and institutional construction, we have undertaken large, complex projects ensuring on-time delivery and great quality within the mentioned budget.

Our organization has a fully computerized Estimating Department and thorough State-of-the-art Technology and Information systems, we continuously update our database, vendors, and subcontractors, which allows us to develop precise info on any construction project.

A significant milestone for Oasis Grace LLC has been the association with the Al Hashar Group has opened bigger opportunities, widening and improving the scope of operation, performance, and helping consolidate our position.

OUR PHILOSOPHY

OUR MISSION

We build, manage, and design structures with passion, service, and quality for progress and human well-being.

OUR VISION

"To continue being an efficient General Contractor working in an ethical and balanced manner to earn the privilege of being the General Contractor of choice".

OUR PASSION

We treat our colleagues with Respect, looking for integral development, safety, and welfare of our employees regardless of their position, status, gender, race, beliefs, and preferences. We treat others as we would like to be treated.

OUR PEOPLE

We deeply enjoy our work. Our passion is manifested in our personal commitment to quality in everything we do and is reflected in the attitude with which we relate to our stakeholders.

MESSAGE FROM OUR CHAIRMAN

"We have succeeded in creating a wide base of satisfied customers whose smiles reflect our deliverance and commitment to quality."

Oasis Grace has substantial equity in the construction sector of Oman, having achieved remarkable growth while contributing to the development of Oman. At Oasis Grace, we have succeeded in creating a wide base of satisfied customers whose smiles reflect our deliverance and commitment to quality.

Over the last decade, Oasis Grace with its strategic expertise, strong execution capabilities, commitment to adopting the highest quality, safety, and environmental policies has become a trusted player in the Sultanate's construction sector.

At Oasis Grace we remain conscious of the fact that we have to raise the bar and set even higher standards for ourselves. We live by the motto of no cost overrun and no time overrun.

Finally, each one of us at Oasis Grace is devoted to the responsibility of remaining true to excellence.

*Sultan Suroor Mohamed Al kharusi
Chairman, Oasis grace LLC*

MESSAGE FROM OUR MANAGING DIRECTOR

"We have succeeded in creating a wide base of satisfied customers whose smiles reflect our deliverance and commitment to quality."

The Oasis Grace LLC name is well known in the construction industry specializing in general contracting for more than 20 years. The company is recognized as an industry leader in civil construction and quality service built to high standards.

At Oasis Grace LLC, we guide our clients through the design and construction process with a high degree of comfort. Our expertise brings sound, practical knowledge to the table and we take great pride in helping others realize their vision. Passion, integrity, and experience—these are reflective of Oasis Grace LLC's corporate values.

We value respect, honesty, and commitment—key factors in being able to develop strategic alliances with those we work with. Our hallmark is unmatched service, competitive pricing, and quality construction. Client satisfaction is our priority. We are committed to social responsibilities, and provide suitable training, employment, and growth opportunities to Oman's at all levels and help in realizing the administration's goal of Omanization.

**"BE A JOB GIVER,
NOT A JOB SEEKER"**

*Dr. Jose Mikle Robin
Managing Director, Oasis grace LLC*

OUR SAFETY

Safety is the only way to work, this is the motto by which we live. We are committed to safety above everything, and this commitment is central to whatever we do. Our proactive approach creates value for our clients and safeguards our employees. Our entire team is dedicated to maintaining a safety-focused business.

Our safety culture is promoted by each member, implementing and evaluating safety practices daily. Our safety program is proactive and action-oriented: every-one from management to trades are involved in making our place a zero-incident workplace. We use daily per-task planning sessions, ongoing safety inspection, weekly safety meetings, safety seminars, special equipment training, safety manual reviews, and email updates to assist in attaining our goal of zero incidents.

Our supervisors receive training in the safety construction outreach program, as well as classes in fall protection, excavation and trenching first aid, CPR and confined space entry procedures, substance abuse awareness, and reorganization. New employees are required to complete our new hire safety orientation program. Our substance abuse program includes pre-hire, post-accident, fitness for duty, for cause, and random drug and alcohol testing. All employees including management are subject to random testing.

QUALITY POLICY

The management of Oasis Grace LLC have defined and documented the following commitment concerning Quality. Every staff member has the responsibility to ensure that the intentions of this policy statement are understood, applied, and maintained within their own activity area. Oasis Grace LLC has made a commitment:

- To develop and maintain the processes needed to produce a level of construction and project management of a consistent standard of quality and at a competitive cost.
- To foster good relationships with clients by effective communications with clients and encouraging feedback.
- To continually improve the effectiveness of the Integrated Management System.
- That every employee constantly aims to improve the overall quality of Company products and services

By adopting this philosophy, the clients of Oasis Grace LLC are assured of an excellent standard of completed projects and services following specifications and contracts. Management has the ultimate responsibility to maintain the quality policy and shall promote all initiatives to attain and improve quality to:

- Give all personnel adequate information and training to enable all tasks to be undertaken with a consistent standard of quality.
- Ensure that excellent relations between the Company and employees are maintained.

PRE-CONSTRUCTION SERVICE OVERVIEW

The proactive approach is the foundation of Oasis Grace LLC, pre-construction philosophy. We provide accurate and timely information to ensure that both the design and the project is completed in the most efficient and cost-effective manner to guarantee commitments by delivering as promised, ensuring your project's success.

CONSTRUCTION SERVICE OVERVIEW

Oasis Grace LLC, a construction company is committed to Setting the highest standards for service and performance in the construction industry. We understand that this can only be professionals and uniquely talented craftsmen with "one" common goal; "the success of the project". Through experienced leadership and attention to detail, we ensure the success of our client's objectives.

Our project managers and superintendents are given the system, tools, and support needed to enable them to produce higher quality, timely, and more cost-efficient results. The most important goal of project management is simply to return value to the project through accelerated construction and innovative planning. The following outlines the basic services provided during the construction phase of the projects.

CONSTRUCTION SERVICES

Setting project goals

Our project manager thoroughly familiarizes with the project's complexities because of his involvement in the pre-construction phase. Along with the superintendent, the project manager organizes a series of meetings with the design team and all the subcontractors to review the project's organization, lines of authority along with establishing its procedures and rules.

Scheduling and monitoring the project

Down to the smallest detail, we develop a comprehensive construction schedule, outlining all material requirements and construction activities. We monitor and evaluate the progress of the work ensuring that "critical path" is always maintained. From our project manager to our laborers, our approach is one of "hands-on" leadership by being involved, making decisions, and resolving problems quickly to ensure success.

Information and documentation to keep you informed

We maintain a current record of all related documentation both in our office and on-site to keep it readily accessible when needed. We conduct weekly construction progress meetings for discussing action items for each of the involved participants to track and manage them, ensuring completion, and control over the job's progress.

Establishing and monitoring quality

We utilize a computerized system to establish and expedite shop drawings and submittal on time. By personally checking all shop drawings and submittal, we make the appropriate corrections and ensure proper and timely delivery of materials. We also coordinate the testing of all required materials to meet both municipal and specializations requirements, following our ongoing quality control checks.

Safety program

We are committed to maintaining the safest job-site possible through our "star safety" program. Weekly toolbox talks on all job-sites keep safety a top priority for all employees. Our safety director, along with the superintendents monitors all subcontractors for adherence to the safety program.

Job cost and accounting

Maintaining an accurate and up-to-date job cost accounting system is a key tool in the effective management of a project. This system allows for early detection of potential problems with a subcontractor or supplier, so they may be averted before they occur.

Project close-out and warranty

We produce a detailed schedule of close-out activities that start with the development of our own punch list as trades complete their work, not waiting until the very end of the project. We coordinate and manage the start-up and testing of all mechanical, plumbing, electrical systems, collecting and cataloging all operating manuals, and assisting in the training of client personnel in the operations and maintenance of all systems.

Note:

This certificate is digitally signed.

This certificate has been signed and certified using a Digital Signature Certificate as specified under The Electronic Transactions Law of the Sultanate of Oman issued by His Majesty's Royal Decree (69/2008).

To check the validity and authenticity of the digitally signed documents and certificates, please check the online service of National Digital Certification Center at (www.oman.om/tam).

The information in this commercial registration is registered based on the Commercial Registration Law No. (3/1974). The commercial registration owner is obligated to obtain the approval of the competent authorities before the commencement of any economic activity when the activity is restricted by prior consent, including the introduction and operation of foreign labor force.

This certificate proves that this commercial registration has a membership of Oman Chamber of Commerce and Industry for only one year from registration date.

The Commercial Registration and the CR certificate are not considered as an approval or a warranty for a license of bringing in labour.

The Commercial Registration does not grant an approval or a guarantee for obtaining an investor's residence permit in the Sultanate of Oman.

To obtain the investment license, it is necessary to fulfill the requirements of Article (8) in the executive regulations of the Foreign Capital Investment Law
